Headquarters for Well Rooted Strawberry Plants

## STRAWBERRIES AS A MONEY CROP

A Wonderful Root System

We know of no crop that is surer of returning a profit to the grower than strawberries. It is true they do not always pay as well as we may wish, but if given proper care we believe that year in and year out you cannot find a crop that will pay more profits.

We believe the following suggestions will, if followed, help you make a profit in growing strawberries, but if either one is neglected success is not so sure.

Select a fertile or well manured piece of land and prepare thoroughly.

Be sure to get good true-to-name plants of varieties that give large yields of handsome, high quality berries.

Set the plants as early as you can get the ground ready for them.

Set the plants carefully, keep them well cultivated and fertilize well.

Remove all blossoms from the standard varieties the year set. Remove them from the everbearing varieties until about the first of July.

See that your berries are harvested and put up in the most attractive way possible. Good fruit carefully packed most always sells well.

Begin hoeing and cultivating soon after the plants are set. With first hoeing be sure to uncover the bud of all plants that may have gotten covered when setting or cultivating. Cultivate and hoe enough to keep the ground from crusting and to keep the weeds and grass down, but do not cultivate or hoe deep enough to disturb the roots.

The growing of strawberries is very similar to growing other farm crops and simple to set out the plants. For home garden set them 12x15 inches. It will require about 8,000 to 10,000 plants to set one acre, 18 by 36 inches.

## OUR GUARANTEE

We guarantee every plant sold by us to be first class in every respect, free from any injurious diseases or insects, and true to name, and hold ourselves ready, upon proper proof, to refund or replace any that prove otherwise. It is mutually agreed between ourselves and the customers that we shall not be liable for a greater sum than the amount paid us for the plants. We are not responsible for crop damaged by weather, fire or floods. We reserve the right to return money in case of shortage.

## POSTAGE

All orders postpaid up to 500 plants, for the states of Michigan, Indiana, Illinois, Wisconsin, Ohio and all nearby states. 15 cents per 100 west of the Rockies. Be sure to allow postage for prepaid orders. Send us your wanted list. Will be glad to fill it out.

## OUR TERMS

Payments invariably in advance. Goods sent C. O. D. only when one fourth of the amount is sent with order with charges for returning money added to bill. Ten per cent down payments will book your order until wanted.

We wish to sincerely thank all of our customers, many of whom have been with us for years for their patronage and we also welcome you who will send your first order to us this year. Whether it is large or small, it shall have my personal and prompt attention. We will send you an order acknowledgement as soon as order is received.

Yours very truly,

WM. ALLENBACH.

**Our Plants are Not Drought Stunted**

## WHY WE SELL OUR STRAWBERRY PLANTS CHEAP

1. We sell direct from our catalog only. You have no agents' commission to pay.
2. We do not spend thousands of dollars on colored pictures in our catalog.
3. Don't be fooled into paying high prices by flashy catalogs full of colors and catch phrases. Mother earth colors her fruits and flowers more beautifully and "True To Name" than mere man can reproduce. We are just farmers who can and will guarantee you a square deal.
4. We have plenty of modern machinery with which we can work most economically. This also cuts down your price. We spend all our time on strawberry plants, and other berry plants. We do not raise fruit trees. We have some for requests.

**GENUINE  
MASTODON**

## **GENUINE MASTODON**

### **THE BEST MONEY-MAKER**

The Mastodon are larger than any other variety. They will bear a heavier crop than any other Everbearing variety.

The Mastodon is a firm berry and can be shipped or hauled moderate distances to market. The Mastodon is excellent for the home garden.

## **LUCKY STRIKE**

This is becoming very popular with some growers for the home garden use and local market, proving superior to Champion or Progressive. The Lucky Strike is a persistent yielder of medium to large berries of very good quality and appearance; makes plants freely and is a vigorous grower. If you haven't any of these fine berry plants, don't forget to send us your order. 200 limit.

## **CHAMPION (PROGRESSIVE)**

They are both the same or so alike and description will answer for both. The Progressive was really the start of growing the fall bearers commercially as a real money crop. They're fine for home use or market. The berries are not so large as those of Mastodon but many prefer their flavor to that of any other strawberry. They're fine for strawberry shortcake. When you send in your order be sure to include this variety on your wanted list. 200 limit.

## **SPRING BERRIES**

### **PREMIER**

The Premier is the leading money-maker among all early varieties of strawberries. It's fine for home garden, for local shipments or for shipping moderate distances. The berries have a bright green cap which sets off the beautiful appearance of the berry. Its uniform shape and rich red color makes the berry very attractive for all purposes. They can't be beat in flavor. Get some this spring.

### **SENATOR DUNLAP**

An old standard variety that has been widely grown in the middle and northern states. The berries are of medium size, bright rich red clear through and fair to good in quality. They're fine as an all-around purpose berry.

### **BLAKEMORE**

A fine new variety originated by Prof. Beatty of the U. S. Dept. of Agriculture, Washington, D. C. The Blakemore is a very heavy producer of bright red berries, ripening a few days ahead of the Premier. They are of medium large size, round to conical in shape. Red to the center without any green tips. Fine for an allpurpose berry.

### **AROMA**

Here's a wonderful late variety planted in many sections of the country, which proves that it will grow successfully in any part of the country. The berry is of light red color, with a bright green cap. Very attractive in boxes or on table. Many have found the Aroma one of the best varieties to grow. Don't fail to get some this spring.

## **RASPBERRIES**

### **CHIEF**

An outstanding new early red raspberry. The berries are dark red, good size, fine flavored. They will thrive in hot, dry, or wet weather. The plants have a high resistance to all diseases.

### **CUMBERLAND**

The best black raspberry you can get for your money. It has a rich, sweet flavor. The berries grow in clusters, several to a branch.

### **LATHAM**

Claimed to be the best red raspberry. It's a perfectly hardy plant in all parts of the country. They have a rich pleasing flavor. If you haven't grown any try it this year.

### **ST. REGIS**

All leading growers agree that this is the best, the most dependable and most profitable everbearing red raspberry.. The fruit begins to ripen mid-season and bears through the fall or until the frost nips them. Better get some this spring, then you will have raspberries the whole year around.

## **BLACKBERRIES**

### **ALLENBACH'S NEW BLACKBERRY KING**

The latest bearing blackberry grown and originated here. They bear heavy from the beginning of August until the later part of September. The plants get from 4 to 6 feet high and branched like small trees. When in bloom they would make wonderful bushes for the garden or yard. The Blackberry King will grow in any soil. The berries are black and velvety looking, almost seedless, very productive.

### **THE ALFRED BLACKBERRIES**

The Alfred Blackberry is fine for market and table use. The berries are of large size and practically coreless and seedless. The Alfred Blackberry will grow in any soil and climate. For a money-maker blackberries are an excellent investment.

## **GRAPES**

### **Plant Grape Vines For Pleasure and Profit**

#### **FREDONIA BLACK**

A new, very early black grape originated and thoroughly tested by the New York Experiment Station. Ripens fully 10 days before Moore's Early. It's a very fine all around grape.

#### **NIAGARA WHITE**

The Niagara White is no doubt the most common of this white grapes, and a favorite for table use. The plants and produce are as hardy as the Concord and ripen about the same time.

#### **WORDEN BLACK**

The Worden Grapes ripen about one week before the Concord. The Worden is a excellent grape for market and home use.

#### **CONCORD BLUE**

The Concord are the most widely known grape for a all around purpose. The Concord are as good a grape as can be had and is excellent for grape juice and jelly.

## WASHINGTON ASPPARAGUS

There is no variety of asparagus as good as Washington for home use or for the market. It is earlier and the stalks are large, tender and more productive than any other variety and last but not least the Washington is immune to "rust" which means that one planting will produce profitable crops for many years.

## A FEW TESTIMONIALS

La Valle, Wis., May 14, 1934.

Allenbach Nursery,  
New Buffalo, Mich.

Inclosed find \$1.00 bill for which please send me 200 Blakmore strawberry plants.

Respectfully,

Mrs. M. Zellman.

P. S.—Have had plants of you before and were the best I ever bought.

Withee, Wis., May 4, 1934.

Allenbach Nursery,  
New Buffalo, Mich.

Gentlemen:

Enclosed find money order for \$1.00 for 100 Cooper and 100 Gardner's Red Gold strawberry plants. Received my order of Mastodon plants in fine shape.

Yours truly,

Henry Geiger,

Withee, Wis., R. R. 1, Box 22.

Milwaukee, Route 11, Sta. F, April 12, 1934.

Allenbach Nursery,  
New Buffalo, Mich.

Dear Sir:

Please send me the following plants:

300 Giant Mastodon Everbearing Strawberry.....\$2.70

100 Blakmore ..... .60

---

 \$3.30

Please send the plants about the 23th to 24th of April. Send nice large plants. The Everbearing plants I received from you last year were very satisfactory, so hope I will receive nice ones again. Enclosed find in money order \$3.30.

Yours respectfully,

Mr. Gottfried Mark,

Route 11, Station F, Box 375,

Milwaukee, Wis.

Biteley, Mich., Monday, Aug. 13th, 1934.

Allenbach Nursery,

Dear Sir:

I received 200 of your giant Everbearing Mastodon Strawberries last spring, they were very fine. I would like 200 more as soon as you can send them as I would like them to get a good start. Hoping to hear from you soon.

Respectfully,

Raymond T. White,

R. R. No. 2, Biteley, Mich.

Superior, Wis., 5-23-34.

Allenbach Nursery,

Dear Sir:

I received my strawberry plants and was very much pleased with them, they were in fine shape and as nice a plants as I could get anywhere.

Please send me (25) St. Regis Raspberry plants as soon as you can. Inclosed find money order for same.

I was so well pleased with the strawberries I told my neighbor and gave him your address and he is going to send for (200) strawberries.

Yours truly,

Mr. L. Woodhouse,

1105—39 Ave. E., Superior Wis.
